MATERIALS:

Renewable and Nonrenewable Resources

Edited and with an Introduction by Philip H. Abelson and Allen L. Hammond.

" . . . materials exhaustion looms as one of the horsemen of their special breed of apocalypse and could bring civilization tumbling down." Club of Rome report, 1972.

The fourth in the special compendium series of authoritative articles from *Science* explores the present state of materials use and supply, and examines the future prospects for dealing with an impending "materials crisis."

DIRECTORY OF NORTH AMERICAN ARID LAND RESEARCH SCIENTISTS

by the AAAS Committee on Arid Lands and the Univ. of Arizona's Office of Arid Lands Studies

Prepared for the United Nations Conference on Desertification and with an introduction by Harold Dregne, the Directory lists the names of over 1000 scientists in Mexico, Canada and the United States active in desertification—representing a wide array of disciplines in the physical, biological and social sciences, including engineering. Detailed indexing describes each individual's specific field of research and geographic expertise. Included in the publication are both a key word and an institutional affiliation index.

Copies are now available for $10.00 each. Remittance must accompany all orders. Please direct all requests to:

ELECTRONICS

The Continuing Revolution

The fifth book in the *Science* Compendia Series explores the past, present, and potential role of electronics in such diverse areas as banking, medicine, communications, education, defense, and more.

Be ready to take full advantage of the electronic advances that are coming your way.

MAKE YOUR MEETINGS ACCESSIBLE TO ALL YOUR MEMBERS

Do some people who should be at your meetings encounter barriers to their attendance? Then **BARRIER FREE MEETINGS: A Guide for Professional Associations** is a AAAS publication you need.

BARRIER FREE MEETINGS, produced by the AAAS Project on the Handicapped in Science, is based on our experiences at the 1976 AAAS National Meeting. We removed barriers for our physically disabled colleagues—to the benefit of all attendees—and we can show you that making a meeting accessible is not that difficult.

The **Guide** gives you step-by-step directions on how to provide easy access to all phases of a meeting. A detailed time-line takes you through the four basic stages of meeting planning: *Initial Preparation*, to *Pre-Meeting Activities*, through *The Meeting* itself and the essential *Follow-Up*. Appendixes provide many examples of forms, publicity pieces, resource lists, and drawings that illustrate accessibility modifications for meeting facilities.

Price: $4.00 retail; $3.75 AAAS members (checks payable to AAAS)

Announcing the 3rd AAAS Colloquium on

Research & Development in the Federal Budget and in Industry

June 20-21, 1978

The third annual AAAS report on R&D in the federal budget for FY 1979 and including a special section on R&D in industry and its impact on the economy will be the subject of an

AAAS
Science & Public Policy
Colloquium
Washington, D.C.
June 20 and 21, 1978

The AAAS R&D analysis project, sponsored by the AAAS Committee on Science and Public Policy and initiated in 1976, has resulted in two well-received books on research and development in the federal budgets for FY 1977 and FY 1978, and two highly successful colloquia in June of 1976 and 1977, attended by 200-250 AAAS members, government officials, and others. The June 20-21, 1978 colloquium will offer a forum for constructive discussion of current issues in federal and industry R&D with officials of the Executive and Legislative branches and from industry and universities.* **Research & Development: AAAS Report III** *by Willis H. Shapley and Don I. Phillips will be available in book form for the June 1978 colloquium.*

Specific topics this year will be the impact of the first complete Carter budget on R&D, trends and problems of R&D in industry, and the impact of R&D on the economy. For information and reservations, write to

For three decades Shell educational films have developed a reputation of high calibre on a wide variety of subjects, adapted to stimulate, inform and kindle new ideas in the minds of viewers. This year and in the years ahead we will be guided by our conviction that as we continue our public service film program we will search for new ideas and ways to maintain our standards of quality to serve you better. In keeping with this dedication we are pleased to announce the release of five new films and the revision of four of our most popular titles.

Shell films are loaned gratis on the understanding the user will pay the return postage. In addition, a new service of our program provides for the leasing of Shell films to those who have a continuing need for their accessibility. Lease agreements are available on a five year or life of print basis.

To order a copy of our new catalog and receive information about our film program please write: SHELL FILM LIBRARY, 1433 Sadlier Circle, West Drive, Indianapolis, IN 46239. Phone (317) 291-7440.
